**Office building:** 99 Longwater Circle, Norwell

**People:** from left to right, Theresa Bell-Nagle, 2 Thumbs Up Hand Therapy--Eric Edelman, Peak Physical Therapy -Tammy Taylor, Speech Language Pathology Center

**Grand Opening Celebration Saturday February 2<sup>nd</sup> – All are Welcome 12 Noon to 2pm!  
2 Thumbs Up Hand Therapy and Speech Language Pathology Center opens additional Norwell offices.  
Along with Peak Physical Therapy they offer 3 different therapy clinics all in one building to benefit the community.**

Theresa Bell-Nagle, owner of 2 Thumbs Up Hand Therapy, opened her first office in Plymouth MA in July 2007. Hand Therapy is a specialty area of Occupational Therapy that focuses on the rehabilitation of the upper extremity; shoulder, elbow, wrist, and hand. Hand therapists use a blend of art and science to achieve a quicker recovery.

‘The new office in Norwell is centrally located on the South Shore and will be more convenient to some who were traveling to our Plymouth office as well as patients referred to us from Boston by hand surgeons, primary care physicians, or other physical therapists’ said Theresa Bell-Nagle. We have served patients with sports injuries, broken arms/wrists, tendon repairs, arthritis pain, carpal tunnel syndrome, hand/joint replacement, pre or post-surgery care. We produce custom fit splints for the shoulder, arm, wrist, hand, fingers . . . and service supportive wound care.’

‘This is a larger space with beautiful sunlit windows allowing us to grow and provide more specialty equipment for our patients to benefit. We are very excited to be in Norwell and look forward to meeting the needs of the community.’

Tammy Taylor, owner of Speech Language Pathology Center, (SLP Center) has an office located in Hanson which was established in 2009 and will be opening the new Norwell office on February 2<sup>nd</sup>. SLP Center is a provider of quality, professional speech and language therapy in an individualized and family-centered manner. Emphasis is placed on the client's functional needs while utilizing innovative research-based therapy within the speech and feeding clinic for patients with varying degrees of impairment (i.e. autism, specific language impairment).

Tammy Taylor also conducts national level iPad conferences for speech therapists and special educators. ‘We have downloaded, tested and reviewed over 700 iTunes apps, such as

Proloquo2GO, Autismate and MyTalkTools. In addition, we recommended targeted iPad technology apps to meet the need of our patients with a strong collaboration between clinic, families and schools.' said Tammy Taylor.

'The office in Norwell will be providing free speech and language screenings on Saturday, March 2, 2013. Please call or visit our website to schedule your screening. I look forward to providing public education and community support for communication, speech, language and feeding.'

Eric Edelman, owner of Peak Physical Therapy and Wellness 'Is excited to have two additional and complimentary therapy firms in his Norwell office building since it will provide patients a greater convenience since we are all under one roof.'

Peak Physical Therapy and Wellness combines the art of hands-on treatment and today's technology to help patients reach their "Peak" potential in the shortest time possible. Peak PT has focused physical therapy programs and treatments for patients in sport rehabilitation, general orthopedic program—arthritis, rotator cuff, tennis elbow, post surgery/ACL or knee replacements, spinal programs for headaches, scoliosis, whiplash, herniated discs, gait/balance program, joint replacement, car injuries, neurological rehabilitation and many more.

'Our Scituate office has been open for 3 years and we opened our Norwell office in 2008 and it has provided us solid growth from the area community, referrals from Boston, area physicians and wellness partners. We have enjoyed this office location since it is set back off the busy track for people to come here and relax and appreciate our tranquil environment. I know this will be the same for 2 Thumbs Up Hand Therapy and SPL Center. When your patients enjoy a comfortable office environment and the therapists who provide therapeutic care, you know they are benefiting from it for them to heal quicker.' said Eric Edelman.

**The Grand Opening is Saturday February 2<sup>nd</sup> from Noon/12pm – 2pm. Come tour the three offices of Peak Physical Therapy, 2 Thumbs Up Hand Therapy and Speech Pathology Language Center. Refreshments will be served with fun family activities including a raffle drawing. All are welcome!**

**Address: 99 Longwater Circle, Suites 101, 102 and 201, Assinippi Park, Norwell, MA 02061**
