## Congratulations to our 2018 winners!

We've been publishing Readers Choice and recognizing winners across the region for more than two decades.

The results are a direct reflection of those the community feel should be recognized. We thank the thousands of readers who have taken the time to share their favorites, so we can share this outstanding list of places to go and things to do with you.

The Readers Choice voting took place in January and February, and hundreds of thousands of votes were cast both in print and online in more than 80 categories.

There were no tiebreakers, so you may see multiple winners in some categories. The winners in all categories reflect the choice of our readers, and are verified within reason by Automated Solutions Direct (an independent firm hired to tabulate votes and results). Readers Choice isn't scientific, nor is it perfect (some misspellings may occur due to incorrect submissions on the ballot), but it is fun!

This survey is conducted as a reader poll and not as a scientific research poll. All ballots received prior to the deadline, and met the ballot qualifications, were tabulated and entered into a drawing to win a \$1,000 Visa Gift Card.

This Readers Choice section is a valuable resource to readers, and in conjunction with our website, [wickedlocaffavorites.com](http://wickedlocaffavorites.com), you can find your Wicked Local Favorites all year long, whether you're at home or on the go!

Follow us on social media and join the conversation at [#wickedfavorites](https://twitter.com/wickedfavorites). If you visit a place you read about in Readers Choice, tell the business and tell us. If you visit a Readers Choice winner, past or present, share a photo of the business or their certificate with us. Let's share all the great things our area has to offer.

Congratulations to all of our winners and thanks to the thousands of readers who took part in making Wicked Local's Readers Choice Awards 2018 another successful event.

Sincerely,

Mark Olivieri

President / South Region
